- High Performance Materials
- Adhesive Solutions
- Piggyback Solutions
- Laminating, Varnishes, UV & Ink Solutions
- Advertising Capable Art Department
- Alternative Solutions

Trebnick Systems strives to achieve the highest-quality flexographic printing. We want your clients' Product Identity to meet or exceed their rigid standards. With over 32 years in the business, Trebnick Systems has the experience to help you achieve your goals and make printing **POP** like never before! We have the capability to print from 133 lpi up to 175 lpi to achieve more definition. Our advertising-capable art department can make changes to your clients' art files or completely recreate the files to produce perfect results in 4-color process printing on any material.
