

Tyvek® is a legendary protective material from DuPont that combines an unparalleled degree of strength, durability, lightweight, all-weather survivability and ease of printing and converting. There is also Tyvek® Brillion®, a substrate with all the advantages of traditional Tyvek® plus an even smoother, more uniform surface for bolder, more intense graphics and enhanced readability.

Tyvek® Brillion® takes printing to a whole new level of durability, quality, strength and flexibility. It is designed to easily and affordably meet the requirements of a wide variety of printing and barcoding applications.

Uses for Tyvek® Brillion®!
